

Pilot Programs Involving Students

Pilot programs leading to the improvement of services to students are encouraged within the Special Education Local Plan Area.

Each LEA shall maintain documentation and monitor all pilot programs which specifically relate to student's with exceptional needs.

When any student is recommended for a specified pilot program, parents shall be fully informed about the program and prior written consent shall be obtained from the parent or guardian prior to placement into the program.

For the first full year following the initiation of a new pilot program, the LEA shall gather and maintain data related to the efficacy of the programs and report to SELPA on the success of and/or necessary revisions to the pilot program.
